Re: Title I Information

To: Parents:

From: Mary Johnston, Principal

Title I is a very important federally funded program that really helps us at our school.

1. It is based on the number of economically disadvantage students at the school.
2. HighMark is a “targeted assistance” school which means we receive money that must be spend **ONLY** on students targeted for help to raise their skills in reading and/or math. This money also serves students in these content areas even if they do no qualify for fee waivers.
3. HighMark Title I funds are used to support reading in K-3rd grades.
4. Also, parents have the right to know the qualifications of teachers throughout our school.

We appreciate and need this money to help us reach all children who are struggling in reading and math.
